

Covid-19 Facts for Kentucky Citizens

The purpose of this document is to encourage Kentucky citizens to:

1. Be educated about the dangers of certain Covid-19 shots.
2. Show that you care about fellow citizens who have lost their jobs for refusing to get these shots. (Please note, the Covid-19 virus is also spread by those who have been vaxed, so these people are not being selfish.)
3. Contact your legislators to urge them to amend one of the current Covid-19 bills to state that
 - a. 'Conscientiously held beliefs' or 'Categories of individual exemptions' should not be the basis for refusing certain Covid-19 vaccines; the basis should be the proven health dangers they pose.
 - b. Citizens should not be required to take any experimental injection or any test with known risks;
 - c. Providers and pharmacies should be permitted to prescribe or offer FDA-approved medicines such as Ivermectin even when 'off-label.'
 - d. Any worker who was removed from employment based on their vaccination status should be reinstated.

Did you ever think
—a day would come when all the main-
stream (MSM) media news programs would
urge you every day and throughout the day
to get a Covid-19 vaccination?

The MSM never report these [under-reported] government statistics.

Did you ever think
—that your tax dollars would be spent on
ads in mainstream media telling you to get a
Covid-19 vaccination?

Why can't we have simple cures?

The screenshot shows a news article from GNEWS™. The headline is "Greenlight for Ivermectin in Japan". The article includes a photo of a person wearing a mask, social media sharing icons, and a link: <https://gnews.org/1476750/>.

... Dr. Ozaki declared that ivermectin has demonstrated significant benefits in reducing infections and deaths where the regimen is prophylactically administered for another indication. With the encouraging medical data from ivermectin clinical trials' reports worldwide, especially the one from FLCCC of US and BIRD of UK, the head of the Metropolitan Medical Association declared that while clinical trials were important, it was time to greenlight doctors to prescribe ivermectin in association with giving the patient informed consent. ...

Rogan and Malone: Most Important Interview of Our Time?

In an interview with Joe Rogan, Dr. Robert Malone, mRNA vaccine expert and outspoken critic of our pandemic response, delivered a powerful message to the world. Yes, it's three hours long, and yes, it's worth every minute.

By Madhava Setty, M.D.

An excellent resource for the risks of face masks and vaccines is Robert F. Kennedy's Children's Health Defense website. Baby boomers and many others are familiar with the assassinations of JFK and RFK. RFK's oldest son became an attorney whose law firm successfully litigated environmental protections against mercury. Because mercury was an ingredient of child vaccines many mothers went to him for legal help when their children became autistic following vaccinations. Will anyone accuse RFK of being a conspiracy theorist?

LEXINGTON HERALD LEADER

Beshear calls on employers to enforce vaccine mandates as COVID-19 cases surge in KY

BY ALEX ACQUISTO
UPDATED AUGUST 05, 2021 3:29 PM

Kentucky COVID-19 New Cases by Week (n = 490,399)

Gov. Andy Beshear reported 'over 2000 new cases' of COVID-19 in Kentucky, including 4 new virus related deaths. BY GOVERNOR ANDY BESHEAR

"No matter where you are in Kentucky right now, if you're going indoors with people outside of your home, put on that mask again," he said. "It's not forever, it's just for now."

At least a dozen health care systems in the state have just this week announced they will [institute a vaccine mandate for all staff](#):

- UK HealthCare
- Appalachian Regional Healthcare
- CHI Saint Joseph
- Baptist Health
- Pikeville Medical Center
- St. Claire Healthcare
- King's Daughters Health System
- Mercy Health — Lourdes Hospital
- Norton Healthcare
- Med Center Health
- UofL Healthcare
- St. Elizabeth Healthcare

Staff at these facilities are required to get their first shot by September 15. State health care associations, including the Kentucky Hospital Association, Kentucky

Knowledge is responsibility

—There is ample evidence that the current Covid-19 vaccines are harmful. *'Once we know and are aware, we are responsible for our action and our inaction.'* (Jean Paul Sartre, an atheist)

Doctor speaks up

The vaccination mandate has already come into effect for care home staff, volunteers, and visitors from Nov. 11. Parliament approved the mandate for frontline NHS workers on Dec. 14.

Steve James, a consultant anesthetist at the King's College Hospital, told Javid that he doesn't believe the science for mandating the vaccines is "strong enough" and the government should at least consider the nuance that some doctors have had antibodies through previous exposure to the CCP (Chinese Communist Party) virus—the virus that causes COVID-19.

"I'm not happy about that," James told the health secretary after he asked an intensive care unit (ICU) their thoughts about the new rule to require CCP virus vaccination for NHS staff.

The unvaccinated doctor said he had had COVID-19 and had been working in COVID-19 ICU since the beginning of the pandemic.

"I've not had a vaccination. I do not want to have a vaccination," James said, adding that one of his colleagues was in the same situation.

"The vaccines are reducing transmission only for eight weeks for [the] Delta [variant of the CCP virus]. With Omicron, it's probably less. For that, I will be dismissed if I don't have a vaccine? The science isn't strong enough," he told Javid.

House Testimony of RN

Colette Martin, RN, 17 years - at the Louisiana House Health and Welfare Committee hearing, told State Rep. Lawrence Bagley that most medical professionals in her hospital aren't even aware VAERS exists...

[In regard to VAERS data]...Over 18,000 deaths, one million permanently disabled, and the CDC admits that only 1 to 10% of reactions are even being reported. **And we know the hospitals are not reporting anything.** This is not just where I work; I have many nurse friends in other local hospitals in the southeast and they all say the same thing.

What I also find is highly disturbing is our treatment protocol. I truly believe our protocol is killing our Covid patients. When I ask other nurses their thoughts, they agree.

At this point doctors will admit our main treatment is not working—"But it's all we have"—. We know that's simply not true; it's just what the CDC will allow us to give; our hands are tied.

...We are potentially sacrificing our chil-

dren for fear of maybe dying, getting sick of a virus—a virus with a 99%

survival rate. Our children are not even at risk for this.

More Kids Dying From Vaccines Than From COVID, Nurse Tells Louisiana Lawmakers

A registered nurse who last month testified at a hearing of the Louisiana House Health and Welfare Committee said her hospital is seeing "terrifying" reactions to COVID vaccines, but hospital officials are failing to report them.

By Jeremy Loffredo

As of now, we have more children that have died from Covid vaccine than Covid itself. And then the health department comes out and says: The new variant has all the side effects of the vaccine reactions we're currently seeing.—Now!—It's maddening, and I don't understand why more people don't see it, and I think they do, but fear speaking out and even worse, being fired.

This is not something easy for me to come up here and speak about, but I feel a deep conviction about speaking truth about what nurses are seeing behind the hospital walls.

This is not about adults who can choose to research or not; It's about our helpless children. And when I look back on this in 20 to 30 years, I have to know that I did everything I could, and I'm asking you to please ponder this. What side of history will you be on? I have to know this madness has to stop.

Please listen to Colette's full testimony -

Vaccine Mandates Expert Panel Highlights
<https://youtu.be/lkVN3KwDfvI>

No longer safe to work as an orthopedic surgeon

... "No-one from Moderna ever contacted me. One word describes how I felt in the first few months after my diagnosis—abandoned..."

RN describes vaccine reaction

Sabrina Hall, RN, First dose of Pfizer 01-05-21 Lot#EL0140 ; second dose of Pfizer 01-25-21 Lot #EK9231

Q: What was your life like before you got the vaccine?

Prior to the vaccine, I was working as a RN full time. I was a 32 year old Mom of 2 active boys, carting them to practices and games. I am also a military spouse. I was active & healthy.

Q: What was your reaction, symptoms, & timeline?

Within 15 minutes after receiving the first dose, I felt tingling down my left hand. I was slightly concerned, but thought maybe they hit a nerve. I stopped at a store on my way home and had to leave due to a wave of dizziness. That night I suffered from insomnia and panic for no reason with no history of panic attacks prior. The days following I suffered severe fatigue and heavy arms. I went to get my second dose reluctantly and started suffering from left sided numbness and tingling, hemifacial spasm, tremors, joint pain, insomnia lasting 7 days at a time with no medication offering any relief. Prior to this a Benadryl would've knocked me out. I began having tachycardia up to 200bpm without any cause, hypertension, chest pains, blurred vision, dizziness, eye floaters and caffeine intolerance. It's been 10 months and I'm currently in my home with an EEG home monitor on for 72hours checking for seizures. I am not recovered.

<https://www.realnotrare.com/post/sabrina-hall>

1. Our elected officials and federal health agencies must start acknowledging our adverse reactions to the vaccines. We have been silenced for nearly a year. Stop the censorship!
2. The medical community needs to be informed of these adverse reactions so that we can obtain better medical care.
3. Large scale research needs to be funded- to increase understanding of these reactions, find a path to recovery, and to help make the vaccines safer for everyone. There is currently no safety net for those Americans injured.
4. Stop the denial of religious and medical exemptions.
5. Stop the mandates. Where there is a risk - there should be a choice. We need to strengthen our economy; not lose our workforce.
6. We need the covid vaccines to be added under the VICP program, including eligibility for those who were injured under the EUA and clinical trials!

Getting the covid vaccine is a public service, and we rolled up our sleeves to do our part to stop the pandemic. It took bravery for those who got the vaccine early on or during the clinical trials. They willingly rolled up their sleeves and are now left out cold by the very same government who urged us to get our doses. This must change!

Knowledge is responsibility

—Is there any language in the current Covid-related Bills to prevent forced vaccinations?

Here are the bills:

HJR23

<https://apps.legislature.ky.gov/record/22rs/hjr23.html> (was BR 933)

HB28

<https://apps.legislature.ky.gov/record/22rs/hb28.html> (was BR 106)

HB52

<https://apps.legislature.ky.gov/record/22rs/HB52.html> (was BR 358)

HB54

<https://apps.legislature.ky.gov/record/22rs/HB54.html> (was BR 353)

HB56

<https://apps.legislature.ky.gov/record/22rs/HB56.html> (was BR 430)

HB57

<https://apps.legislature.ky.gov/record/22rs/HB57.html> (was BR 384)

HB62

<https://apps.legislature.ky.gov/record/22rs/HB62.html> (was BR 432)

HB84

<https://apps.legislature.ky.gov/record/22rs/HB84.html> (was BR 362)

HB112

<https://apps.legislature.ky.gov/record/22rs/HB112.html> (was BR 972)

HB178

<https://apps.legislature.ky.gov/record/22rs/HB178.html> (was BR 363)

HB198

<https://apps.legislature.ky.gov/record/22rs/HB198.html> (was BR 493)

HB352

<https://apps.legislature.ky.gov/record/22rs/hb352.html>

What is in these bills ...?

- *to prevent an emergency regulation for all of us to be vaxxed with unsafe, ineffective vaccines*
- *to reinstate workers*
- *to require risk-free testing, nor*
- *to state that providers can prescribe Ivermectin and other simple and effective medicines for Covid-19.* (addressed in HB 352)

NOW IS THE TIME

The 2022 Regular Session of the Ky Legislature began January 4 and ends April 14.

https://legislature.ky.gov/Documents/22RS_Calendar.pdf

During this Session all concerned Kentuckians need to contact their legislators and send a clear message:

1. I do not plan to be vaccinated. I object to taking a test that is a medical procedure with potential dangers.
- Alternative 1.
I have been vaccinated and now question this. I want to know why any liability for injury has been blocked by law.
2. The Covid-19 vaccines are dangerous, even at times causing death. That is a fact, not a 'belief'.
3. If simple treatments for the virus such as Ivermectin had been permitted from the start, there would be no crisis now. Many deaths would have been prevented.
4. Please save Kentucky medical workers, children, students and all others from further suffering by using a common sense approach to this pandemic as have other U.S. states and other nations. Reinstate fired workers.

Find your legislators here:

<https://apps.legislature.ky.gov/findyourlegislator/findyourlegislator.html>

Once a mandate is pronounced, as we have already seen following Gov. Beshear's emergency administrative regulations, a lot of damage will result, mostly based on inaccurate information.

An existing Bill can be amended to address the concerns we have.
